Projects

Laravel VueJs - Invoice Generator (Current Working)

- Built on Laravel 10 and Vue.js 3, this Invoice Generator App streamlines invoicing processes with advanced features. Leveraging Laravel's robust backend, the app ensures secure data management, while Vue.js 3 enhances the frontend for a dynamic and responsive user interface.
- The app facilitates efficient invoice creation, customization, and tracking, providing businesses with a seamless solution for managing their financial transactions.

Laravel VueJs - Bike Service

- Web-based and Mobile-based platform that allows The ultimate solution for cyclists. Track rides, analyze performance, and connect with a community of riders.
- Access maps, plan routes, and monitor fitness stats.
- Whether you're a casual rider or a pro, this app enhances your biking experience with valuable insights and social connectivity.

Laravel React Js - City Guide

- Laravel and React.js powered platform featuring an admin panel for seamless content management, client interfaces for collaborative promotion, and mobile API integration for real-time, user-friendly exploration of attractions, events, and personalized recommendations.

ReactJs - MoEving Admin Panel

- Streamline electric vehicle ownership with this all-in-one platform. Schedule charging, locate charging stations, and monitor battery health.
- Get real-time diagnostics, maintenance alerts, and remote access. Whether you're a green enthusiast or a fleet manager, this app simplifies EV maintenance and ensures a smooth, eco-friendly ride.

MERN - CMS E-com

- Built on the MERN stack, our Ecommerce CMS App is a cutting-edge solution for online businesses. The platform offers a seamless blend of MongoDB, Express.js, React, and Node.js technologies, providing a robust content management system. With features like user-friendly product management, secure transactions, and dynamic storefronts, this app empowers businesses to effortlessly create, manage, and scale their online presence.

Laravel Blade - CMS Cake Shop

- Creating a cake website using the Laravel framework is a delicious endeavor that allows you to combine your love for baking with your web development skills.
- Laravel, known for its elegance and robust features, empowers you to build a stunning and functional online platform for showcasing your cake creations. With Laravel's MVC (Model-View-Controller) architecture, you can efficiently manage your cake catalog, orders, and user interactions. Implementing authentication and authorization ensures secure access, making it easy for customers to create accounts and place orders.
